Ressource d'énergie alpine

Dear guests new COVID 19 measures

The health of our guests and our employees is important to us. To protect all of us, we are constantly updating our protection concepts in accordance with cantonal and federal regulations (BAG).

Recently, masks become mandatory in all public areas of the hotel for guests and staff alike. There is no obligation to wear a mask at the table, if you are seated, or in our swimming pools.

Rooms

To comply with the sanitary standards recommended by Hôtellerie Suisse, the hospitality products as well as the minibar are once again available in the rooms.

With the application of hygiene rules, however, delays may be expected at check-in.

Restaurant & lobby

According to the standards established by the Canton of Valais, it is an obligation for all customers in the restaurant or lobby to download the SocialPass application for free on your smartphone.

With this App you have to scan the QR Code of the assigned table on each arrival and departure.

To guarantee distancing as well as affluence, we offer two time slots for breakfast and dinner.

Limitation to 4 people per table, except for people living in the same household.

The restaurant and bar are closing at 22:00h.

Leukerbad resort

Except for the public thermal baths, the following facilities are open:

<https://www.leukerbad.ch/en/>

The mountain cableways are open until :

01.11.2020 for the Torrent

08.11.2020 for the Gemmi

In any case, we do our utmost to welcome you in a warm atmosphere and make sure that you can enjoy a pleasant and relaxing stay in the autumn colours of the Valais mountains.
